

Sprint Plan 1  
Neo-Market  
Jan. 28 2018  
Revision number: 0  
Revision Date: N/A

**Goal -**

1. Learn about NEO and all the possible applications/features.
2. Finalize front end layout based on initially planned back-end functionality.
3. Dummy smart contract on the testnet.

**User Story -**

1. (8) As a developer, learn about NEO and smart contracts.
2. (5) Get a contract written up and deployed onto the test net.
3. (8) Get the layout and wireframe finalized for the web app.
  - a. Figuring out and coding what we want the app to look like.
  - b. How our Wallets will look
  - c. Transaction history
  - d. Posts
4. (8) Research other projects that have used NEO in their applications
  - a. <https://github.com/CityOfZion/awesome-neo>
  - b. Maybe follow up with Malcom to get those links
5. (5) As a developer, I want to understand the scope of utilities possible when leveraging NEO's pre-existing technologies.
  - a. Wallets
  - b. Transactions

**Team Roles -**

1. Alec - Scrum Master, Front End
2. Colin - Back End
3. David - Back End
4. Nick - Front End
5. Victoria - Front End
6. Zack - Product Owner, Back End

**Initial Burnup Chart - N/A**
